If there are any differences in the interpretation of the two languages in this document, the German version takes precedence. For documents issued in English and other foreign languages, the English version takes precedence.

The authority for using the OEKO-TEX® STANDARD 100 mark "OEKO-TEX® CONFIDENCE IN TEXTILES – STANDARD 100 – Tested for harmful substances" is restricted to the applicant. Use of the mark presupposes a test report from a testing institute certifying the authorisation as well as issue of the following declaration.

### Declaration

For authorisation to use the mark "OEKO-TEX® CONFIDENCE IN TEXTILES – STANDARD 100 – Tested for harmful substances" I declare as authorized person on behalf of my company.

## 1 Quality control

We have described to one of the testing institutes the precautionary measures taken within the company to ensure that all products manufactured and/or sold for which authorisation to use the mark "OEKO-TEX® CONFIDENCE IN TEXTILES – STANDARD 100 – Tested for harmful substances" has been granted do fulfil the conditions and criteria (depending on requested certification either according to Annex 4 or according to Annex 6) of the OEKO-TEX® STANDARD 100 (and of the possibly also applicable OEKO-TEX® LEATHER STANDARD) in the same way as the samples that have been sent to the institute, and based on those tests the authorisation has been granted.

## 2 Quality assurance

To ensure the conformity of the products manufactured with the sample material and/or sold we operate an effective quality assurance system and shall maintain it for the whole period of use of the mark "OEKO-TEX® CONFIDENCE IN TEXTILES – STANDARD 100 – Tested for harmful substances", thereby ensuring and proving to the OEKO-TEX® institute that the products from different processing batches or from different colours are spot-checked for compliance with the OEKO-TEX® STANDARD 100 conditions and criteria (depending on requested certification either according to Annex 4 or according to Annex 6) and as circumstances require are spot-checked for leather, skin or fur components, perhaps present in the certified article too, for compliance with the requirements of the then co-applicable OEKO-TEX® LEATHER STANDARD. Tests can be carried out at our works or at one of the OEKO-TEX® institutes.
